

Production of each mineral

COPPER

CONCEPT	DESCRIPTION
Location mine	Corregimiento Caracoli, Valledupar (Cesar) and municipalities San Diego and La Paz (Cesar)
Mining title extension	2.750 Hectares
Type of exploitation	Open sky
Amount of work fronts	3
Measured resource	17'400.000 ton (Mineralized structure)
Installed production capacity	1.000 Ton/month
Projected production capacity	15.000 Ton/month

LIMESTONE

CONCEPT	DESCRIPTION
Location mine	Corregimiento Caracoli, Valledupar (Cesar)
Mining title extension	550 Hectares
Type of exploitation	Open sky
Amount of work fronts	1
Measured resource	2'300.000 ton
Installed production capacity	5.000 Ton/month
Projected production capacity	10.000 Ton/month

BARYTE

CONCEPT	DESCRIPTION
Location mine	Corregimiento Caracoli, Valledupar (Cesar)
Mining title extension	150 Hectares
Type of exploitation	Open sky
Amount of work fronts	1
Measured resource	180.000 ton
Installed production capacity	200 Ton/month
Projected production capacity	1.000 Ton/month
